PART I

No. 333-44 –C. B. 161-19-4, DATED 3RD SEPTEMPER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. 11053-63, Cts. 247-18-1 dated 17th November 1919 laying down rules for the recruitment of Magistrates under the scheme for the separation of Judicial and Executive functions and for regulating the pay of each class of recruits.

(2) Letter No. D. 2 Dis. 124—19-20 Judl. dated 6th February 1920, from the District Magistrate, Kadur District and

(3) Letter No. R.O.C. 898—19-20 dated 20th February 1920, from the Registrar, Chief Court, in regard to the pay to be drawn by Mr. T. Venkoba Rao, 1st Grade Magistrate, Chickmagalur.

Order No. 333-44—C. B. 161-19-4, dated 3rd September 1920.

Certain doubts having arisen in regard to the pay admissible under paragraph 3 of the order read above to officers appointed substantively, or temporarily, as 1st grade Magistrates from among Assistant Commissioners and Munsiffs, Government are pleased to amend that paragraph as follows :—

"3. The pay of the magistracy will be fixed as follows :—

(1) *First Grade Magistrates* :—

(*a*) Senior Assistant Commissioners and Subordinate Judges posted as 1st grade Magistrates will draw their respective grade salary.

(*b*) Other officers in Government employ and Members of the Bar appointed as 1st grade Magistrates, substantively or temporarily will draw Rs. 500-50/2—600.

(2) *Second Grade Magistrates* :—

(*a*) Assistant Commissioners and Munsiffs posted as 2nd grade Magistrates will draw their respective grade salary.

(*b*) Other officers in Government employ and Members of the Bar appointed as 2nd grade Magistrates, substantively or temporarily, will draw Rs. 150 (during probation) and thereafter 200-50/3-400"

2. The first sentence of paragraph 4 of that order will also be amended as follows :—

"All Senior Assistant Commissioners and Sub-judges will be liable to be posted for duty as First Grade Magistrates, and all other Assistant Commissioners and Munsiffs will be liable to be posted for duty as Second Grade Magistrates. Members of the Bar directly recruited as Second and First Grade Magistrates will be eligible for transfer to the Civil Branch of the Judicial Department as Munsiffs and Sub-Judges respectively."

3. These amendments will have retrospective effect from the date of the order now amended.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Registrar, Chief Court of Mysore.
The Inspector-General of Police in Mysore.
The Revenue Commissioner in Mysore.
The Deputy Commissioners and District Magistrates.
The Comptroller, Mysore Government through the Financial Secretariat.

Bnd.—G. W. B.

Chief Secretary, Revenue Secretary and Secretary, Education and Agriculture.

No. 346-57—C. B. 56-20-1, DATED 3RD SEPTEMBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. 6607-86—G. M. 365-17-1, dated the 17th November 1917, directing that the posts of Chief Secretary, Revenue Secretary and Secretary, Departments of Education and Agriculture, be treated as outside the cadre of Deputy Commissioners, and regarded as special tenure appointments on the following rates of pay :—

Chief Secretary ..	Rs. 1,200 plus Rs. 200 Local Allowance.
Revenue Secretary, Secretary, Departments of Education and Agriculture.	Grade pay plus Rs. 150 Local Allowance,

and that during the tenure of the holders of these special appointments, their places in the regular grade be filled provisionally as provided in Article 60, Mysor Servicee Regulations.

Order No. 346-57–C. B. 56-20-1, dated 3rd September 1920.

As under the order read above, the officers selected for the posts of Chief Secretary, Revenue Secretary, and Secretary, Departments of Education and Agriculture, will be entitled to the promotions ordinarily due to them in their proper grades, whether permanent, *sub pro tem*, or acting, while continuing in the special appointments, the Comptroller has entertained a doubt as to whether the officers provisionally appointed in their stead can have the benefit of temporary promotions as well.

2. Government observe that in the case of the Chief Secretary for whom a definite rate of pay has been fixed, the grant of promotions whether temporary or otherwise to the officer provisionally appointed in his stead is admissible under the rules as no extra cost is involved.

3. Government are pleased to further direct that notwithstanding that the Revenue Secretary, and Secretary, Departments of Education and Agriculture are entitled to the promotions accruing in the regular grades permanent or temporary, the officers provisionally appointed in their stead be also allowed the benefit of all such promotions, pending the reversion of the holders of the said offices to their places in the Deputy Commissioners' grade.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Revenue Commissioner in Mysore.
The Revenue Secretary to Government.
The Secretary to Government, Departments of Education and Agriculture.
The Comptroller, Mysore Government, through the Financial Secretary.
The Deputy Commissioners of Districts.

Hire of Transport Carts.

No. G. 6642-701—Mily. 451-19-4, dated 22nd September 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. G. 6780-830—Mily. 134-14-15, dated the 1st December 1915, sanctioning for a period of one year certain arrangements and rules for the hire of transport carts of the Imperial Service Transport Corps to the Departments of the State.

2. Government Order No. G. 15422-478—Mily. 134-14-20, dated the 12th May 1916, sanctioning the continuance of the above arrangements.

3. Correspondence ending with letter No. 380, dated 10th July 1920, from the Chief Commandant, Mysore State Troops, suggesting that as the cost of maintaining bullocks has risen abnormally the rates of hire mentioned in the order of the 1st December 1915, may be revised as shown below :—

For a period of two hours, the rate may be increased from Re. 0-8-0 to Re. 1-0-0.

For any period exceeding two and not exceeding five hours the rate may be increased from Re. 1-0-0 to Rs. 2-0-0.

For any period exceeding five and not exceeding eight hours the rate may be increased from Rs. 1-8-0 to Rs. 3-0-0.

Order No. G. 6642-701—Mily. 451-19-4, dated 22nd September 1920.

The levy of the revised rates for the hire of Transport carts suggested by the Chief Commandant in his letter read above is sanctioned.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Chief Commandant, Mysore State Troops.
The Comptroller to Government.
The Heads of Departments.
The Deputy Commissioners of Districts.

Government Stationery Depot.

No. G. 5001-60—P. & S. 22-20-3, DATED 2ND SEPTEMBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Administration Report on the working of the Government Stationery Depot for the Official year 1919-20, received with letter No. 2216, dated 4th August 1920, from the Superintendent, Government Stationery.

Order No. G. 5001-60—P. & S. 22-20-3 dated 2nd September 1920.

Recorded.

2. During the year under report, no English made articles were purchased and all purchases of stationery were made only from Indian Mills and Local Firms. The total value of stationery purchased was Rs. 2,04,797-1-10 as against Rs. 2,32,727-8-3 in the previous year.

3. Fifty-seven officers as against thirty-five of last year were newly added to the list of officers authorised to indent for stationery and consequently the cost of supplies made to the various departments went up to Rs. 2,92,917-1-9 as against Rs. 2,34,427-10-11 in the previous year.

4. The total cost of paper, etc., supplied to the press amounted to Rs. 1,35,891-9-8, which sum exceeded that of the previous year by Rs. 52,644-6-10. This increased issue of paper is reported to be due to the printing of extra forms and books required by the several offices that were newly formed and for Railways and University work.

5. The revision of the establishment of the Stationery Depot sanctioned in Government Order No. G. 26331-2—P. & S. 67-18-3, dated 23rd May 1919, was given effect to from 1st July 1919, and this resulted in a net increase of Rs. 780 per annum.

6. Complaints have been received from several officers stating that their indents are either, not complied with, or only partially complied with, thus causing a great deal of inconvenience. In some cases such non-compliance is seen to be due to the receipt of indents in the Stationery Office long after the prescribed date. While the Government agree that greater supervision should be exercised by heads of offices to see that indents are forwarded in proper time, they think however, that more satisfactory arrangements should also be made for the supply of stationery on the basis of the indents of the previous years to offices whose indents are not received on the due dates in the Stationery Office. The Superintendent is requested to submit a report suggesting some suitable arrangements whereby the work in offices is not seriously handicapped.

7. In regard to the use of stationery, the Government direct that heads of offices should exercise the greatest possible economy as there is reason to believe that there is much extravagance and waste still allowed to prevail in most offices.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Superintendent, Government Stationery.
The Heads of Departments.
The Deputy Commissioners of Districts and other indenting officers.

Order No. G. 6860-919—P. & S. 26-20-3, dated 24th September 1920.

Recorded.

2. Additions made to the machinery during the year consisted of one Babcock Standard Printing Machine, one 10 h.p. motor and one New Cnqueror Guillotine Machine complete with accessories purchased at a total cost of Rs. 13,045; 2,251¾ lbs. of type were purchased at a cost of Rs. 6,587 and 2,727 lbs. of type were cast in the Press itself and taken to credit in the Press Stock Account.

3. The fixed establishment of the Government Press was reorganised during the year in accordance with Government Order No. G. 2145—P. & S. 56-18-7, dated 26th July 1919, involving an additional annual expenditure of Rs. 7,599 and the employment of 13 extra hands. The Branch Press at Mysore also was being strengthened from time to time by temporary additional hands to cope with the increasing demands of work from the University and Railway Offices. Thirty-three additional hands were thus sanctioned temporarily, of whom, 28 were disbanded by the end of June 1920. The new buildings for the Branch Press at Mysore were completed and occupied during the year.

4. The total expenditure for the year was Rs. 1,46,982-5-0 as against Rs. 1,06,362-4-9 in the previous year, the increase being due partly to the re-organization of the Press, sanctioned in July 1919 and partly to the increased cost of materials.

5. The total outturn consisted of 48,752¼ pica pages as against 46,306½ during the previous year. There was also a slight increase in the number of pages of Standing Matter and Stereo-plates. The increase with regard to the work of binding, perforating, ruling and numbering was large, while there was a considerable decrease in embossing work. These charges are attributable to the fluctuating demands for the particular kinds of work in question.

6 The number of units of overtime work done during the year under report was 2,348 against 2,289 in the previous year.

7. During the year under report, 272 books and periodicals were registered as against 299 of the previous year. Of these, 107 were in the vernaculars spoken in the State, 93 in English and other European languages, one in the Indian classical language and 11 in more than one language. Copy-right was secured on 44 books, bringing a net income of Rs. 88.

8. The General Education School continued throughout the year and there were 64 pupils as against 44 in the previous year. There were 10 students on the rolls of the technical school, of whom 3 were in receipt of scholarships. The morning class for the Press employees continued to be held. Out of the 5 students who appeared for the Madras Government Technical Examinations held in December last, 2 passed in the Elementary Grade in composing and one student who sat for the examination passed Proof-reading in the Intermediate Grade. The progress of the school was thus satisfactory.

9. The value of miscellaneous work sent for execution at private presses by the Superintendent amounted to Rs. 3,260 which is comparatively small.

No. G. 6860-919—P. & S. 26-20-3, DATED 24TH SEPTEMBER 1920.

10. On account of the increased cost of labour prevailing everywhere, the Government have recently sanctioned enhanced remuneration to the employees in the Government Press by converting the piecework establishment into an establishment paid on hour account. Under this scheme, there will no longer be any need for getting printing work done at private presses. The Government hope that the increase now sanctioned and the changes now ordered will result in increased efficiency and increased output of work.

Read–

Government Order No. 2593-612—Police 155-18-2, dated the 1st August 1919, sanctioning the recruitment of two Probationary Inspectors of Police, and 5 Probationary Sub-Inspectors every year and fixing the period of probation for Probationary Sub-Inspectors at two years as in the case of Probationary Inspectors and directing that they may be given practical training in the second year of probation.

2. Letter No. G. 974—19-20, dated the 2nd October 1919, from the Inspector-General of Police, forwarding a scheme for the practical course to be undergone by the Probationary Inspectors and Sub-Inspectors and requesting that they may be issued as Appendix I A to Volume II of the Mysore Police Manual.

Order No. G. 5481—Pol. 85-19-2, dated 8th September 1920.

The rules forwarded by the Inspector-General of Police being elaborate and difficult to work, they have been modified and approved as appended to this order.

2. The Inspector-General of Police is requested to take necessary steps to incorporate the rules in the Mysore Police Manual.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

No. G. 5481—Pol. 85-19-2, dated 8th September 1920.

ANNEXURE.

A Scheme for Training Probationary Inspectors and Sub-Inspectors in Practical Work.

Probationary Sub-Inspectors will undergo practical training for a period of one year as under:—

1. On passing their examinations they will be attached to the Offices of the Assistant Superintendents of Police, Mysore and Bangalore, and the Superintendent of Police, Kolar Gold Fields, for a period of three months.

During this period, they should be given a thorough insight into the working of the beat system, the watching of K. D's. and other suspicious characters and the regulation of traffic. They should be asked to watch the investigation of cases and made to write station-house, general and special diaries.

2. (*a*) During the second term of three months, they will be placed for half the period under an experienced Taluk Inspector to learn the details of Taluk Police work.

The Inspector will depute the Probationers to investigate simple and easy cases of reported crime and unnatural deaths at first and more important cases as they gain experience. They should be required to handle every case entrusted to them through all its stages, and encouraged to seek advice when they feel any difficulty or doubt. The Inspector should also take them round and show how inspections and routine police duties are carried out.

(*b*) When they have gained sufficient experience under an Inspector, they will be attached during the second half of the period to the Kasaba Head Station to work first as Dafedars and then as Sub-Inspectors.

3. The Probationers will next be placed under the Prosecuting Inspector of the District for a period of three months.

(*a*) During this period, the probationers will be under the direct supervision of the Prosecuting Inspector, and

(i) study carefully the cases referred to the Prosecuting Inspector;
(ii) note on such cases; and
(iii) attend at the hearing of cases by Magistrates.

(*b*) It will be the duty of the Prosecuting Inspector to see that the Probationary Sub-Inspectors gain an insight into the manner in which cases are prepared, and presented to the Courts, and learn how to weigh evidence and cross-examine witnesses in Court.

In addition to these duties, the Probationary Sub-Inspectors will attend headquarter parades at least three days a week, when they should be given an opportunity of drilling the men.

4. During the last three months of their probation, the Probationers, will be attached to the staff of a District Superintendent of Police and learn work in all branches of office and executive work.

These rules will apply *mutatis mutandis* to the training of Probationary Inspectors also.

No. G. 5731-40—Pol. 256-13-12, dated 11th September 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. J. 3416-25—Pol. 49-10-6, dated 18th May 1912, sanctioning among other matters the discontinuance of the practice of sending round the Police charge sheets from office to office and approving of the form of charge sheet as annexed thereto.

2. Correspondence ending with letter No. 5867-421, dated 27th February 1919, from the Inspector-General of Police in Mysore, submitting modified forms of A, B and C sheets for approval.

Order No. G. 5731-40—Pol. 256-13-12, dated 11th September 1920.

Under the existing practice, the Police B and C reports are, after disposal, submitted by subordinate Magistrates for the remarks of the District Magistrate, who sends them through the Superintendents of Police to the Taluk Police for noting the Magistrate's orders and returning the reports to the Courts concerned. With a view to avoid the delay involved by this procedure, which is not in conformity with the provisions of the Criminal Procedure Code, and the Chief Court rulings on the subject, the District Magistrate, Mysore District, has suggested that a column similar to column 22 of the present form of the 'A' sheet, *viz.*, *'Result of enquiry or trial and number of case on the file of the Magistrate to be communicated to the Police immediately on disposal'* might be inserted in both the B and C Forms of the Police report. This proposal is concurred in by the Chief Court aud the Inspector-General of Police and is accordingly approved.

2. The Inspector-General of Police has also brought to the notice of Government that the revised form of charge sheet approved in the order of 18th May 1912 has not been brought into force yet. Covernment direct that the new form be introduced without delay, with the addition of a counterfoil, as suggested by the Inspector-General, to be returned to the Police by the Magistrate after entering the result of the case therein thus obviating the necessity for sending a separate intimation of the result as contemplated in the said order.

3. The forms as revised of A, B and C sheets are appended to this order.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Report on the Administration of Jails and Lock-ups.

No. G. 5750-63—Pris. 48-19-7, DATED 11TH SEPTEMBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 686 –25-20, dated the 3rd May 1920, from the Inspector-General of Prisons in Mysore, submitting the Report on the Administration of Jails and Lock-ups in the State for the Calendar year 1919.

Order No. G. 5750-63—Pris. 48-19-7, dated 11th September 1920.

The year under report opened with a balance of 1,256 prisoners of all classes confined in the Jails and Lock-ups of the State and the admissions during the year numberd 13,878, giving a daily average of 1,336·71 against 1,203·37 in the previous year. Out of these 13,791 were discharged leaving a prison population of 1,343 at the close of the year.

2. Government are glad to note that the number of juvenile admissions which had risen from 19 in 1917 to 68 in 1918, decreased to 35 during the year under report, and that the number with previous convictions also decreased to 6 from 11 in the preceding year. The question of the establishment of a Reformatory for juvenile offenders in the State has been for some time past under consideration and Government hope to reach an early decision after further examining the question in certain fresh aspects now receiving attention in British India.

3. Out of 1,865 prisoners admitted into the two Jails, 1,587 were convicts with a term of imprisonment under one year. Government would like to impress once more upon the Magistrates the desirability of their utilising the provisions of Section 562 of the Criminal Procedure Code more largely than they have been doing at present.

4. The gross expenditure incurred in the department during the year under report was Rs. 1,56,979-2-1 against Rs. 1,15,350-10-6 or Rs. 117-6-11 per head of average strength against Rs. 95-13-8 per head during 1918, the increase being due to the abnormally high prices of articles of clothing and foodstuffs prevailing during the year under review. The cash earnings of prisoners amounted to Rs. 14,015-12-11 against Rs. 19,772-6-7 in 1918, or an average of Rs. 10-7-9 against Rs. 16-6-11 in the previous year. The decrease in the cash earnings of prisoners is said to be mainly due to the high prices at which raw materials required for manufactures had to be bought and the consequent diminution of sales in the manufacturing department of the two jails. The explanation however is not satisfactory. The Inspector-General of Prisons is requested to take suitable action to increase the cash earnings of prisoners. The average net cost of maintenance of convicts in the jails was Rs. 98-2-10 per head of average strength against Rs. 69-3-5 in the previous year. The average net cost per head in the Lock-ups was Rs. 126-11-10 as against Rs. 109-9-4 during the previous year.

5. The expenditure incurred and the income derived, under the head "Industries" in both the jails during the year under report amounted to Rs. 24,967-9-8 and Rs. 31,839-11-1, respectively, the corresponding figures for the year 1918 being Rs. 24,692-10-10 and Rs. 36,479-15-2. The decrease in the income is probably due to smaller output on account of the slackness of the demand. Every attempt should be made to secure an increased sale of jail goods. The subject of improving the industries now carried on in the two jails and maintaining them in a satisfactory condition so as to be remunerative to Government and of utility to convicts employed upon them is engaging the attention of Government. The Superintendent of the Bangalore Central Jail was recently deputed to visit the Jails at Vellore, Salem and Coimbatore in the Madras Presidency to study the manufactures carried on in those jails. The proposals submitted by him together with those regarding the revision of establishment of work instructors are under the active consideration of Government.

No. G. 5750-63—Pris. 48-19-7, dated 11th September 1920.

6. At the beginning of the year there remained in all the Jails and Lock-ups of the State a total number of 419 under-trial prisoners. Nine thousand and eight hundred and five were admitted during the year, making a total of 10,224 prisoners, against 8,221 in the previous year. Of these, 9,740 were discharged leaving a balance of 484 at the close of the year. In this connection it is to be observed that the average period of the detention of prisoners awaiting trial before Sessions Courts and Magistrates has not been shown in the report under review. Government desire that this information be furnished in future reports.

7. The health of prisoners in the Jails and Lock-ups of the State was good throughout the year. The aggregate number of prisoners admitted into hospital fell from 844 to 617 during the year under report and the daily average number of sick decreased from 27·23 to 14·92. The number of deaths has similarly decreased from 47 in 1918 to 17 in the year under report. Owing perhaps to the absence of epidemic diseases.

8. The most important events of the year were the special releases on the 19th and 29th July 1919 on account of the Signature of Peace and the birth of a son to His Highness the Yuvaraja of Mysore. Altogether 290 prisoners were released in connection with these auspicious events and those that remained in the Jails and Lock-ups were given special remissions under the rules.

9. In para 58 of the report, the Inspector-General of Prisons brings to the notice of the Government the necessity for separate accommodation for under-trial prisoners in the Mysore Jail and in some of the lock-ups of the State. He is requested to submit suitable proposals in the matter.

10. The number of convicts released under Remission Rules was 233 against 189 in the previous year. It is satisfactory to find that the practice of mustering prisoners and explaining to them the benefits of the Remission Rules has been adopted in the Bangalore and Mysore Jails as suggested in the previous year's review and that the benefit of the system is appreciated by all the convicts which has resulted in a fall in the number of prison offences.

11. With regard to religious and moral instruction, the report is silent as to the nature of the arrangements made, in consultation with the Inspector-General of Education, for imparting such instruction to the prisoners in a systematic manner. There is much scope for improvement in this direction and Government trust that early action will be taken in the matter.

12. Government are glad to note that the two non-official visitors appointed to the Mysore Jail visited the Jail, but they regret that none of the non-official visitors visited the Central Jail, Bangalore, and that a few only of the *ex-officio* visitors performed their duty in this respect. The lack of interest shown by the visitors was noticed by Government in their review of last year's Administration Report. Government desire to impress upon the visitors once more the importance of their periodically visiting the jails and hope that they will evince greater interest in this respect than they have done in the past. The Inspector-General of Prisons is requested to report, for the information of Government, the names of such of the *ex-officio* visitors as have failed to visit the Jails and the Lock-ups during the year under report.

13. Government are glad to note that the Inspector-General of Prisons did considerable inspection work during the year under review and that his administration of the Department has been satisfactory.

(The report together with the Statements A, B and C, is printed as accompaniment.)

Order No. G. 6045-105—G. M. 194-17-8, dated 14th September 1920.

In Government Order No. 695-734—G. M. 180-07, dated 30th July 1908, the Government issued certain instructions in regard to the care of monuments and other objects of antiquarian or archæological interest in the State and defined the responsibility of the Deputy Commissioners, Public Works Officers and of the Director of Archæology in this respect. These instructions are mainly based on the provisions of Article 314 of the Government of India Public Works Code and prescribe in general terms the responsibility for the care of monuments. The necessity for devoting greater attention to the preservation of ancient monuments, for ensuring their systematic inspection and for preventing wanton neglect in some cases, has been engaging the attention of Government for some time past. The Committee appointed to consider and report on the measures necessary in this behalf has submitted a list of 163 monuments, the conservation of which calls for special arrangements. The Committee has urged also the desirability of enacting a law corresponding to the Ancient Monuments Preservation Act No. 7 of 1904, and the necessity for the provision of larger grants from public funds for the maintenance and special repairs of the monuments.

2. An analysis of the list submitted by the Committee shows that out of the 163 monuments enumerated by them, 91 are Muzrai institutions at present in service and under the control of the Muzrai Department, and that only 19 of them have sufficient funds of their own, for their up-keep in good order. Twenty monuments of which 7 are Muzrai institutions in service are being maintained by the Public Works Department. Fifty-nine monuments are neither Muzrai institutions nor are they maintained by the Public Works Department. Of these two namely Sir P. N. Krishna Murti's Bungalow at Seringapatam and the Vidya Shankara temple at Sringeri are private property. The lists received from the Deputy Commissioners of districts show, however that there are a number of other privately owned temples, buildings and inscriptions not included in the Committee's list. It is probable that as a result of further exploration by the Archæological Department, some additions may have to be made to the list. In the intersts of all classes of monuments, therefore, the enactment of a special law on the lines of the Indian Act is desirable and necessary steps therefor will be taken in this respect in the Legislative Department.

No. G. 6045-105—G. M. 194-17-8, DATED 14TH SEPTEMBER 1920.

3. The Director of Archæology is requested to classify in consultation with the Deputy Commissioners, where necessary the 163 monuments mentioned in the list appended to this order on the lines indicated in the Government of India Resolution No. 48, dated 21st February 1919, that is, as follows:—

I. Those monuments which from their present condition and historical or archæological value ought to be maintained in permanent good repair.

II. Those monuments which it is now only possible or desirable to save from further decay by such minor measures as the eradication of vegetation, the exclusion of water from the wells and the like.

III. Those monuments which from their advanced stage of decay or comparative unimportance, it is impossible or unnecessary to preserve.

The monuments should also be classified into those which must be annually inspected by an officer of the Archæological Department and those which need be inspected by such officer only once in five years. A list of the monuments showing this combined classification should be submitted to Government before the 30th November 1920.

4. The Director of Archæology will be responsible as heretofore for exploration and excavation of sites of archæological interest. Deputy Commissioners of Districts and all other officers who come across articles, etc., of archæological or antiquarian interest, not included in the standard list, are requested to communicate their finds promptly to the Director. The Director will then submit to Government his recommendations as to their additions to the list, arrangements for maintenance, etc.

5. The work to be done in respect of monuments falls under the following heads:—

(1) Protection from (*a*) wanton or ignorant demolition, or (*b*) traffic in and sale of images and other works of antiquarian interest removed from such monuments;

(2) Conservation from decay;

(3) Restoration or special repairs including reconstruction of demolished portions of resetting of dilapidated portions in their original setting; and

(4) Periodical Inspection.

(i) Of these, protection requires legislative powers and as soon as the Regulation already referred to is passed, the Deputy Commissioners will be held responsible to enforce the law in this behalf.

(ii) Conservation, *i. e., the ordinary maintenance* and annual repairs of a minor nature, will be attended to by the local Muzrai authorities, in respect of all Muzrai institutions where service is being conducted, and by the local revenue authorities in all other cases. In the case of monuments of special importance and value which are not Muzrai institutions in service whole-time care-takers may be employed by the Deputy Commissioners, with the concurrence of the Director of Archæology. In every case, the local officers should confine their activities purely to keeping the buildings and premises clean and in good repair and free from rank vegetation, protecting them from the effects of the wind, sun and rain, the ravages of rodents, white ants, etc. In respect of ordinary annual repairs, care should be taken not to interfere with the aesthetic or any special features of the buildings by indiscriminate white-washing, etc. Lumpsum grants as noted in the margin will be placed at the disposal of the Deputy Commissioners, annually, for the maintenance of monuments which are not Muzrai institutions. In the case of Muzrai institutions in service, the expenditure on ordinary maintenance and annual repairs should be met from the funds of the institutions themselves.

	Rs.
Bangalore ...	100
Kolar ...	75
Tumkur ..	100
Mysore ..	250
Hassan ...	200
Shimoga ..	150
Kadur ...	75
Chitaldrug ..	50
Total ..	1,000

(iii) Whenever any special repairs on a large scale are necessary or any construction or alteration whatsoever is involved or a partial or wholesale restoration is proposed, the Muzrai Assistant Engineer in the case of Muzrai institutions, or the local Public Works Sub-Division Officer in the case of others, will prepare an estimate in consultation with the Archæological Draftsman and after a joint inspection of the spot, so that the new work may not detract from the special historic or artistic features of the building and also be in consonance with the general design and spirit of the monument. The estimate thus prepared should, after scrutiny by the Superior Officers of the Public Works Department and by the Deputy Commissioner, or Muzrai Superintendent as the case may be, be sent to the Director of Archæology for countersignature and submission to Government in the General Department for administrative sanction and allotment of funds out of the special grant referred to below. No such work should be put in hand without the sanction of Government in the General Department. In cases of emergency, however, where owing to an accident or other unforseen causes, some work is immediately necessary to prevent a building from further deterioration, the Executive Engineer of the Division should visit the spot with the Director of Archæology and arrange for the immediate execution of the temporary work. The cost of conservation and maintenance of Muzrai institutions in service should be met from the funds of the institutions or from the provincial Muzrai grant.

(iv) Government will make provision from time to time for the cost of special repairs to monuments which are not Muzrai Institutions in service and for special watch and ward establishments, if any, when such repairs or establishment are sanctioned.

(v) The Revenue Sub-Division Officers will be responsible for inspecting all the monuments within their jurisdiction once a year and submitting a report of inspection in respect of each institution to the Deputy Commissioner for scrutiny and transmission to the Director of Archæology. The Director of Archæology, his assistant, or the Archæological draftsman, should also inspect annually each of the monuments selected for annual inspection and should also inspect at least one-fifth the number of the monuments listed for quinquennial inspection. A programme of such inspections should be prepared in advance and submitted to Government for information and record in June every year. The results of the inspection should be communicated to the Deputy Commissioner within one month of the visit. The Director of Archæology is requested to suggest two forms one for use during such inspections by the Revenue Sub-Division Officers and another for use by Archæological Officers.

6. Government note that the two private monuments are in the custody of the two premier Jahgirdars in the State and they have no doubt that they will make all the necessary arrangements for the satisfactory preservation of these and other monuments in their possession. The Director of Archæology is requested to inspect these monuments once a year in consultation with the Jahgirdars and to give them all necessary expert advice in regard to their maintenance, repairs, etc.

7. An account of the work turned out in pursuance of this order should be sent by each Deputy Commissioner, annually, before the 31st August to the Director of Archæology who will consolidate and incorporate them in the Annual Archæological Report.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Director of Archæological Researches in Mysore.
The Chief Engineer of Mysore.
The Muzrai Superintendent in Mysore.
The Comptroller to Government.
The Revenue Commissioner in Mysore.
The Deputy Commissioners of Districts.
Other Heads of Departments.

Exd.—T N.

No. G. 6045-105—G. M. 194-17-8, DATED 14TH SEPTEMBER 1920.

REPORT OF THE COMMITTEE APPOINTED IN CONNECTION WITH THE CONSERVATION OF ANCIENT MONUMENTS IN THE STATE.

In pursuance of Government Order No. G 1202-4—G. M. 194-17-1, dated the 30th July 1917, appointing a Committee consisting of the Deputy Chief Engineer, the Muzrai Superintendent and the Director of Archæological Researches, with the last named officer as convener, to consider certain points in connection with the restoration and preservation of ancient monuments in the State and submit a report to Government, the Committee held three meetings on the 8th and 22nd of September and the 6th of October 1917, and after discussing the points in all their bearings, arrived at the following conclusions :—

(1) The monuments for the conservation of which special arrangements are required are contained in the list (A) submitted herewith. It contains in all 163 monuments of historical, archæological or artistic interest found in the several districts of the State. It is likely that some more monuments will have to be included later on as the result of further exploration and enquiry.

(2) An examination of the list of monuments will show that there are very few among them which are under private control. Most of them are Muzrai institutions subject to the control of Government and several others, such as the memorials at Seringapatam, Bangalore and other places, are being maintained by the Public Works Department. Though in these circumstances it may seem unnecessary to legislate, yet movable objects such as inscribed slabs, and statuettes, carvings, etc., connected with the monuments have to be protected. It is therefore very desirable to enact a regulation on the lines of the Ancient Monuments Preservation Act of British India—Act VII of 1904, though in view of local conditions it is not necessary to retain Sections 5 to 9 which relate to the preservation of monuments by agreement, seeing that in case Government interference should become necessary as regards any monuments under private control it would be simpler to acquire them outright.

(3) The unique monumental wealth of the State carries with it a great responsibility to preserve it, as far as possible, intact for the benefit of the future generations. Though in the past some attention was bestowed on the subject and expenditure incurred in the restoration and repairs of a few of the Hoysala structures, a great deal still remains to be done, and systematic work to this direction is very necessary to prevent the monuments from lapsing into ruin.

The Muzrai Superintendent has submitted a statement of Muzrai institutions (B) showing the income and funds at their credit and how far their maintenance and repairs can be attended to from their funds and the departmental budget. It will be seen from this statement that out of the 163 monuments in (A), 90 come under the category of Muzrai institutions and only 19 of these (Nos. 11, 13, 16, 19, 27, 29, 33, 54, 55, 60, 66, 67, 88, 109, 116, 148, 152, 158 and 161) can be maintained from their own funds without extraneous help. The cost of maintenance of the remaining Muzrai institutions will have to be met wholly from public funds. Of the 73 monuments which are not Muzrai institutions, only 18 (Nos. 1, 8, 14, 30, 57, 59, 62, 96—100, 102, 104, 105, 109, 158 and 161) are being maintained [by the Public Works Department as shown by the statement] (C) submitted by the Chief Engineer. It will thus be seen that by far the largest number of the monuments in (A) require special help for their maintenance and repairs.

(*a*) In these circumstances it is absolutely necessary that a sum of at least Rs. 25,000 per annum should be made available for the conservation of monuments. Out of this grant Rs. 5,000 will be utilised for the annual maintenance of structures whose repairs have already been completed and the balance spent in repairing the monuments according to a programme arranged in order of importance and urgency. The above grant should be in addition to what is being now spent for this purpose in the Public Works and Muzrai Departments.

(*b*) If the scheme of conservation is to be successfully carried out, it is very necessary that there should be intimate co-operation with one another among the Revenue, Public Works, Archæological and Muzrai Departments. The responsibility for the preservation of the monuments in each district must rest with the Deputy Commissioner. Eradication of plants, employment of watchmen, where necessary, and other details have to be attended to by the Revenue Department, the cost being debited to the new grant. A systematic inspection of the monuments in their serveral districts has to be made by the Executive Engineers, and repairs to the monuments in the order of urgency have to be effected by the Public Works Department under the guidance of the Director of Archæology. The Assistant Engineer attached to the Muzrai Department may also be deputed to go round and study the condition of the monuments and prepare estimates for those that require immediate attention, until the services of the specialist now undergoing training in Bombay become available for this work.

(*c*) It is desirable to form a Standing Committee, including the Muzrai Superintendent and the Director of Archæology as members, for this purpose. Standing Orders

may also be issued with advantage for the guidance of the Public Works, Revenue and Muzrai Departments in the matter of conservation, repairs, etc.

(*d*) For the success of the scheme, there should be one officer who could be held directly responsible to Government for the proper condition of these monuments. There are some advantages in the Director of Archæology being this officer, but the monuments which are now in the charge of the Public Works or Muzrai Department may continue to be so, the Director being competent by himself or his Assistant to inspect and bring to notice any defects requiring attention. The administration of the annual grant has also to be entrusted to him. He will draw up a programme of repairs in consultation with the Muzrai Superintendent and submit to Government for sanction.

With regard to the expenditure that has to be incurred for conservation purposes, a detailed examination of the monuments is necessary to arrive at a sufficiently accurate estimate. Nearly 30 of the monument in (A) (Nos. 3, 4-7, 8, 15, 20, 21, 23, 24, 32, 39, 48, 59, 62-65, 67, 78, 94, 103, 129, 130, 143, 151, 156—158), however, require little or no expenditure for their preservation, and of the others 18 are being maintained by the Public Works Department and 19 can be maintained by the Muzrai Department. There are thus left about 100 monuments, for the conservation of which special funds are required.

G. ARAVAMUDU IYENGAR,
R. V. SUNDARAM IYER,
R. NARASIMHACHAR,
Convener.

A—Consolidated List of Monuments in the State deserving of conservation.

BANGALORE DISTRICT.

Serial No.	Taluk	Place	Name of the monument
1	Bangalore ...	Bangalore Fort ...	Tippu Sultan's Palace.
2		Do ...	Venkataramanaswami temple.
3		Do ..	Old dungeon.
4—7		Bangalore ...	Kempe Gowda's 4 watch towers.
8		Bangalore Town ..	Cenotaph to the memory of those who fell in the siege of Bangalore.
9		Gavipura ...	Gangadhareswara temple with Saivaite emblems.
10	Dodballapur ...	Dodballapur Town ...	Asharkhana built by Abbas Khuli Khan.
11	Nelamangala ..	Sivaganga ...	Cave temples of Gangadharesvara and Honnadevi.

First and Second Class Travellers' Bungalows.

No. G. 5921-90—G. M. 72-19-47, DATED 14TH SEPTEMBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. G. 17618-78—G. M. 198-14-60, dated the 24th June 1918, issuing revised rules for the management of travellers' bungalows in the State.

2. Paragraph 2 of Government Order No. G. 27910—G. M. 68-18-35, dated 14th June 1919, stating that it is unnecessary to enhance the powers of sanction of Deputy Commissioners, in respect of estimates for repairs and improvements of travellers' bungalows and that estimates costing over Rs. 250 may, as usual, be got attended to by the Public Works Department.

3. Correspondence ending with letter No. C. 4309—Gl. 18-19, dated 25—28th June 1920, from the Revenue Commissioner in Mysore bringing to notice the fact that, in accordance with the existing orders of Government, the responsibility of having the travellers' bungalows properly equipped with necessary furniture rests with the Revenue Commissioner, while the Public Works Department is responsible for carrying out the necessary improvements and stating that the practice of making a common provision in the Public Works budget, both for the supply of furniture and for improvements is likely to lead to confusion and unnecessary correspondence and suggesting that separate allotment may be made, in the Revenue budget for the purchase of furniture to first and second class travellers' bungalows, out of Rs. 30,000 provided for improvements under "XXIV Civil Works" in the budget, and soliciting sanction to give enhanced powers to the Deputy Commissioners and the Revenue Commissioner for sanctioning estimates, etc., relating to improvements and repairs to travellers' bungalows, the works being carried out in the Maramat Department under the Deputy Commissioners, unless the estimates exceed Rs. 1,000 in which case, the Public Works Department may be entrusted with their execution.

4. Un-official Memo No. 7—P. W. D., dated 9th July 1920, from the Chief Engineer of Mysore, on the subject.

Order No. G. 5921-90—G. M. 72-19-47, dated 14th September 1920.

Government deem it unnecessary to provide a separate allotment for the purchase of furniture to first and second class travellers' bungalows in the Revenue budget, as the provision of Rs. 30,000 for their improvements under "XXIV Civil Works" in the current year's budget is intended both for effecting improvements and for supplying furniture, etc., and as the expenditure is at present regulated by Government. A sum of Rs. 4,069 has also been distributed among the several districts in Government Order No. G. 1707-22—G. M. 156-19-9, dated 22nd July 1920, for meeting the ordinary requirements of first and second class travellers' bungalows, in respect of furniture, crockery and contingencies during this year. The provision of Rs. 30,000 referred to above excluding the sum already spent as noted in the margin and the whole provision to be made in future budgets for improvements of first and second class travellers' bungalows will be placed at the disposal of the Revenue Commissioner, who will distribute the amount every year among the several districts for the purchase of additional furniture and for effecting improvements to them, as per details given in the statement appended to the first of the Orders read above.

	Rs.	a.	p.
For sinking a well in the Kunigal travellers' bungalow	1,256	0	0
For furniture supplied to the travellers' bungalow at Kolar	513	0	0
For furniture supplied to the additional travellers' bungalow at Tarikere	615	6	0
Total ...	2,384	6	0

2. As regards the scrutiny of estimates, paragraph 5 of the Government Order dated 24th June 1918, lays down that all petty repairs of the travellers' bungalows should be attended to in the Revenue Department under the orders of the Deputy
